

David Castillo

Smart art

A Yale alum and Art Basel Miami Beach front runner, David Castillo runs a tight ship of hand-picked local and international contemporary artists.

Unlike many of the city's gallerists who rode the inflated art market's wild ride, one senses this young man not only loves what he does, but understands what he's talking about.

His edgy concepts for group shows tend to pop up on established art radars soon after, and he truly fosters talent including Quisqueya Henriquez, Frances Trombly and Pepe Mar. ”
