Pérez Art Museum Miami presents Jillian Mayer's exhibition, titled "Slumpies," on display through January 22, 2017. "Slumpies" are a body of sculptures that function as utilitarian objects. Presented on PAMM's outdoor terrace as well as in the Vattikuti Learning Theater on the museum's first floor, Mayer's works are interactive and invite viewers to use them by sitting, reclining or lying on them in order to best engage their phones and the virtual universes they allow us to access. Mayer's practice explores the impact of technology and the digital on our daily lives, our recreation, and our perceptions of the world around us. While often working in video and photography, this most recent project represents a physical, sculptural response to the ubiquitous presence of technology and our need to be online at all times.

The exhibition is on view at Pérez Art Museum Miami, 1103 Biscayne Blvd., Miami, FL 33132.
