PEPE MAR
BRIGHT SPOT

Mar's wildly intricate multimedia pieces use fabric, paint, sculpture and paper to completely fill up a room with bright colors and busy-yet-cohesive patterns. The 42-year-old Mar reimagines traditional motifs and accepted cultural icons through his abstract works. Mar received his MFA from Florida International University and now lives in Miami. His large-scale multidimensional pieces have appeared in influential galleries from Miami's lauded Locus Projects gallery to Pittsburgh's Mattress Factory.
