

Here Is a Complete List of Every Artist Who Has Appeared in Multiple Biennials Over the Past Five Years

Many of the biggest names crop up again and again.

Artnet News, June 9, 2022

Who, exactly, are the artists whose work fills biennials?

To answer this question, Artnet News examined more than 200 international art surveys, large and small, from the Aichi Triennial to the Yinchuan Biennale, that have taken place or been announced since the opening of Documenta 14 in 2017. The idea was to compile a list of the biggest stars of these shows, and to understand why certain names crop up repeatedly.

Below is the complete list of all the artists who appeared more than once in the data. Their names are followed by the number of biennials we identified them in, and the list of events in which they were featured.
